Social Networks in Education:
What is the Landscape?

Learning Objective

- Explain educational uses for social networking sites
- Read some articles on the use of social media in the classroom
- Post a reflection of your experience in the Discussion

What do I do?

- Use an Internet Search (Google or Bing) to find popular articles on the use of social networking in education.
- Use the UA Library Database to find research on the use of social networking in education.
- Read the articles and form an opinion on the use of social networking in education.

Reflection

Please use the Dropbox to turn in your one page reflection paper.

- Reflect on what you've learned in this module. Share about how you might use this teaching tool in a lesson plan. Would you use this technology?
